## Professional Summary

A motivated and skilled web developer with 1.7 years of experience in creating and maintaining websites. Proficient in a range of modern technologies including Python, HTML, CSS, JavaScript, and MySQL. Demonstrated ability in ethical hacking using Kali Linux to ensure web security. Adept at collaborating with cross-functional teams to deliver outstanding web solutions.

---

## Professional Experience

### Web Developer

**VACREVA CONSULTING, Chandigarh, India**

August 24, 2020 – December 31, 2021 (1.7 years)

- Developed and maintained web applications using Python, HTML, CSS, and JavaScript.
  - Collaborated with cross-functional teams to design and implement new features.
  - Optimized website performance and ensured responsiveness across various devices.
  - Utilized MySQL for database management and data manipulation.
  - Debugged and resolved technical issues in a timely manner.
  - Assisted in the deployment and testing of web applications.
- 

## Internship

### FullStack Developer: *Edutech Life, IIT KHARAGPUR*

- An internship as a full-stack web developer offers valuable hands-on experience in both front-end and back-end web development.
- Skills Development: Internships provide opportunities to enhance skills in programming languages (JavaScript, Python, Ruby, etc.), front-end technologies (HTML, CSS, React, Angular, etc.), back-end frameworks (Node.js, Django, Flask, etc.), databases (MySQL, MongoDB, PostgreSQL, etc.), and version control systems (Git, SVN, etc.).

### CAMPUS AMBASSADOR: *TRYST, IIT Delhi and NSS IIT Delhi*

- Frameworks and Libraries: They often work with frameworks and libraries like React, Angular, or Vue.js to streamline development, manage state, and create reusable components.

- Responsive Design: Ensuring that the website or application works well across various devices and screen sizes by implementing responsive design techniques.
- Optimization: Optimizing frontend code and assets for faster loading times and better performance, considering factors like page speed, caching, and minimizing requests.

### **WEB DEVELOPMENT:** *The Sparks Foundation*

- A frontend developer is a professional responsible for creating the user interface and the visual aspects of a website or web application.
- Web Development Languages: Proficiency in languages such as HTML, CSS, and JavaScript is fundamental.
- They use HTML for structuring web content, CSS for styling and layout, and JavaScript for interactivity and functionality

---

## **Skills**

- **Programming Languages:** Python, HTML, CSS, JavaScript
- **Database Management:** MySQL
- **Web Development:** Frontend and backend development, responsive design, debugging, performance optimization
- **Tools and Technologies:** Kali Linux (Ethical Hacking)
- **Other Skills:** Problem Solving, Team Collaboration, Attention to Detail

---

## **PORTFOLIO**

Collection of investments, projects, works, or documents that showcase skills, achievements ([Portfolio](#))

---

## **Project**

### **Web Development**

As a web developer, I have designed and developed several dynamic and responsive websites utilizing HTML, CSS, JavaScript, and Bootstrap. My portfolio includes a [Guitar Studio](#) for booking lessons, a [Massage Showroom](#) showcasing services, a [Hotel Booking](#) system for reservations, and a [Registration Form](#) for user sign-ups. I have also implemented a [News Status](#) portal, a [Taxi Service](#) application with [real-time](#) updates, and a **Resume Demo** built with Bootstrap. Additionally, I have experience managing **cPanel**, working with **MySQL databases**, and developing on **WordPress**

### **Online Movie Platform ([Angular](#))**

Developed an online movie streaming platform using Angular for the frontend and integrated with multiple APIs for movie data and recommendations. Utilized various third-party libraries and frameworks for seamless user experience and responsive design. Collaborated with external resources and followed industry guidelines for project architecture, performance optimization, and user authentication.

Key features:

- Real-time movie search and filtering
- User authentication and personalized recommendations
- Responsive design for mobile and desktop

**Technologies Used:** Angular, TypeScript, HTML/CSS, APIs, RESTful services, Authentication

## **Python Full Stack Web Developer**

Developed and maintained a dynamic web application using Python for backend logic and MySQL/Django for database management. Designed responsive and user-friendly interfaces with HTML, CSS, and Bootstrap. Implemented APIs for seamless frontend-backend communication and ensured smooth data flow between the client-side and server-side operations.

---

## **Education**

### **Master of Computer Applications (MCA)**

Banaras Hindu University, Varanasi, Uttar Pradesh  
2021-2023

### **Bachelor of Computer Applications (BCA)**

Desh Bhagat University, Punjab  
2017-2020
